USB 3.1 C CABLES & ADAPTERS

The next generation of USB is here with the new USB 3.1 C cable and adapter series. USB Type-C connectors feature a slim, sleek design tailored for emerging mobile products, robust enough for laptops and tablets. Reversible plug orientation and cable direction mean it will no longer matter which end of the cable or which side of the connector you plug in.

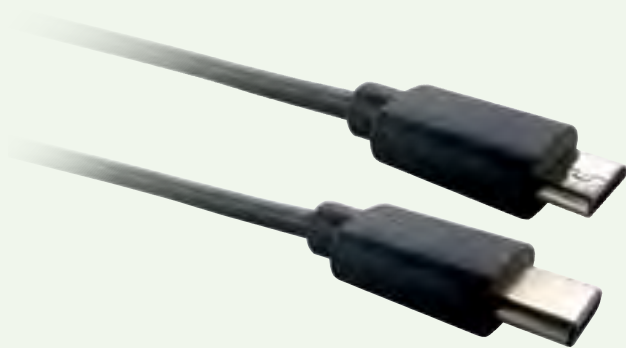

Shaxon's USB 3.1 C cables are compatible with USB 3.1 Gen 1 (5Gbps) and Gen 2 (10Gbps), and are backwards compatible with USB 2.0. They feature enhanced power delivery current options, extended 1.5A/3A current range and USB Power Delivery based interface configuration to 60W.
