New Product: Injection-Molded Cat5E Keystone Cable-Mount Jack **Date:** 12/27/05

Introduction

Shaxon Industries, Inc. is proud to introduce our rugged injection-molded Cat5E keystone cable-mount jacks. The factory pre-terminated jacks are ideal for flexible plug-and-play interfaces in female-to-female or female-to-male plug cables. Create instant horizontal wiring quickly and efficiently - perfect for data centers, temporary network installation and disaster recovery.

Contact your Shaxon sales representative to learn more about possible applications and options.

Features/Benefits:

- Durable molded construction
- Snap-in keystone capability
- Colored molded housing for ease of identification
- Cat 5E performance

Applicable Markets:

- Data centers
- Temporary networks
- Disaster recovery

Shaxon Industries, Inc.
