

ULTRA HIGH DENSITY

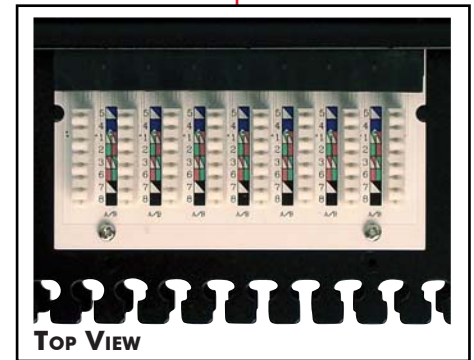

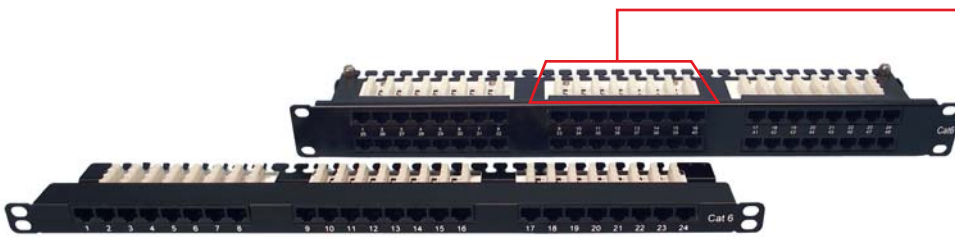

Shaxon Industries **ULTRA HIGH DENSITY** patch panels save valuable rack space by condensing standard RJ45 port counts into half the standard space.

Features and Benefits

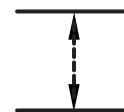

- Saves space in the rack/cabinet
- Dual 568A/B color coding
- 110-type termination
- Integrated wire management on rear of panel
- Qualifies for the Shaxon 25 year installation warranty when installed by a Shaxon certified installer.

Typical results for CAT5e and CAT6: >3 dB headroom on PS ACR when installed with full Shaxon Channel.

24 port:
0.875" height (1/2U)

Shaxon P/N	Description
MPH55HA248	CAT5e Ultra High Density patch panel, 1/2U, 24 port RJ45-110
MPH17HA248	CAT6 Ultra High Density patch panel, 1/2U, 24 port RJ45-110
