

# CAT5E AND CAT6 110 TERMINATION PATCH PANELS

**110 Termination Patch Panels** are the heart of connectivity in today's high speed networks, providing a patching and connection point for user equipment in various network configurations. Shaxon Industries Patch Panel line up is **TAA** compliant and features both 19 rack mount variants as well as a 12 port mini-patch option for applicable installation environments. Shaxon's attractive packaging is a benefit in both identifying the product without deboxing and in increasing product sales in any retail, counter or related environment.

## Connect with Shaxon
