

# OM4 LC UNIBOOT FIBER OPTIC CABLE

Shaxon's OM4 Fiber Optic assemblies feature an extended bandwidth (4700 MHz.km) and support longer link lengths for 10Gb/s, 40Gb/s and 100Gb/s transmission as well as Infiniband and Fiber Channel applications. Uniboot cables are commonly specified in Data Center or other high density environments. Our LC Uniboot cables utilize space saving 2.0mm round cable and the boot design makes it easier to switch the cables polarity. Don't see the length that you need? In addition to our stocked lengths, we can manufacture custom lengths to order in California as well as handling custom labeling or other installation-specific needs.

## Connect with Shaxon

- Value added sales programs and more support for our customers!
- High quality products!
- Fast turn-around on customs!
- Large CA inventory!
- ISO 9001:2015 certified

### Cable Description:

LC to LC, duplex, 50/125 MM, 10/40/100 Gb, OM4, aqua
