

MADE CUSTOM FOR YOU

Shaxon Specializes in supplying our customers what they require, both in value and quality.

Listening to our customers and bringing their unique requirements to life has been part of our DNA since we began manufacturing in California in the early 90's. Over the years, we have learned to bring the best of our onshore and offshore manufacturing together.

Shaxon has developed 100's of tooling for various custom molded assemblies. We can stock tooling both in our CA plant and global affiliate factories to offer unsurpassed options in low and high volume production. **We excel at unique O.E.M./O.D.M. solutions!**

***From concept-
To completion!***

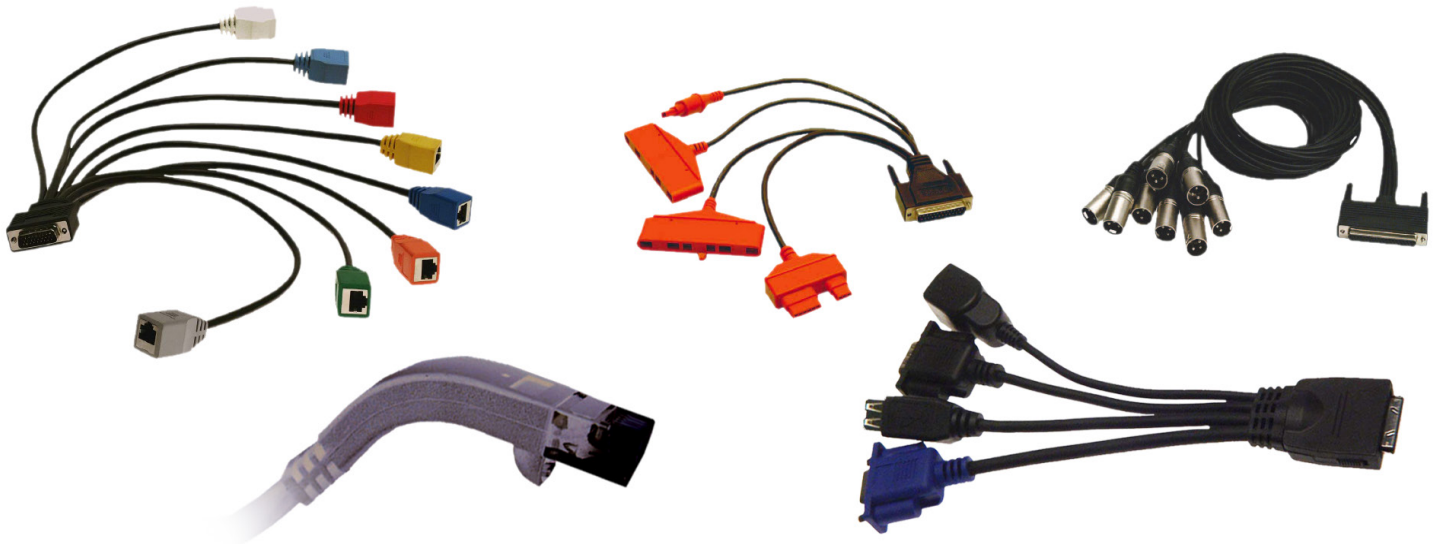

Bring us your concept or idea and we'll work with you to bring it to life! Our range of customs spans our complete product line including:

- Premise Wiring Customs
- Computer Peripheral Customs
- Fiber Optic Customs
- Audio/Video Customs
- Broadcast/Telecom/Satellite Customs

and more!

Reach out to our experienced sales staff and rely on our years of experience finding the right solution for our valued customers.
